My father was cut from the same pattern, a wild and reckless spirit in wded times. The two became friends such as you and Mr. Merrihew My father was also rich and a man of foresight. His real wealth was in foreign securities, mines, oils, steel, steamships. When the war terminated the prince prevailed upon my father to return with him to Italy. Italy itself strangely enough, for the first time. was in turmoil. Il Re Galantuomo, that Piedmontese hunter, Vittorio Emanuele, wished to liberate Ventee from the grasp of Austria, to wrest temporal power from the Vatican and to send the French troops back to France. Well, he accomplished all these things, and both my father and

There came a great day. A young prince was born, and the rough king stood as his godfather. Later I added my feeble protest, at the cost of my mother's life. As I grew up I became my father's constant companion. We were always out of doors. By and by he sent me to America to school, I returned from America to enter a convent out of Rome and later went to Milan and studied music.

One fatal day the old prince and my father put their heads together and mother was a Venetian, therefore I determined that this great friendship of theirs should be perpetuated. The young prince should marry the young signorina. They drew up the strangest of wills. Both men were in full control of their properties. There was no entailed estate such as one finds in England. They could do as they pleased. And this was before Italy had passed the law requiring that no art treasures should be sold or transported. Fortunately for me, my mothir's property was considerable,

The impossible clauses in the joint will read that if we two young people declined the bargain the bulk of the estates should revert to the crown. Again, if we married and separated this terrible disease, so that they also years the fortunes should become the crown's. If, having separated from my husband, either for just or unjust reasons, i should secretly or publicly occupy any villa or palace mentioned will it would be a tacit admission that I accepted my tustand. Was

there ever such an lusane tangle kindly meant? We must marry; we must be happy. That our minds and hearts were totally different did not matter

Time went on. The old prince died suddenly; his wife followed. And then my kind and loving father went the way. I was taken under the wing of a duchessa who was popular at court. At this period the young prince was one of the handsomest men in Europe. He was brave, clever and engaging.

On completing my education I de-cided to live in Rome. The old duchessa mothered the rich American girt gladly, for, though I was half Italian, they always considered me as the child of my father. I was presented at court. I was asked to dinners and receptions and balls. I was quite the rage because the downger queen gave me singular attention.

The prince by this time seemed changed in some way. But I was blindly young, Often I noticed the long scar on his cheek. He had received it, he said, in some cavalry exercise.

Now, there was another clause in this will. It was the one thing which made the present life tolerable and possible to me. We were to be mar-

ried without pomp, quietly, first at the magistrate's and then at the church. At last the day came.

We passed through the streets to the magistrate's. I did not know then that I was not in love, that I was only young and curious. I threw roses to loned dinners and suppers to his departure of his friends. It was post- me in full dress uniform, looking very any who asked. The prince sat beside handsome and distinguished. The prince smiled, but he was nervous and not at ease. I thought nothing of this at the time. I believed his nervous-

ness a part of my own. The magistrate performed his part. Legally we were man and wife. We were leaving for the church when at the very doorway a handsome woman, sad eyed, weary, shabbily dressed, touched me on the arm.

"A rose, signora!" I gave it to her, smiling pityingly. "God pray," she said, "that this man will make you happier than he made "Let us be on!" said the prince

cagerly. "Walt!" I turned to the woman.

"Signora, what do you mean by those words?" "His highness knows." She pointed

to the prince, whose face I now saw, It was black with rage and ugliness. "What has be been to you?" I de manded.

She answered. I understood. In that moment I became a woman without illusions. Without looking at the prince I entered the carriage and closed the door in his face. He stormed; he fied. I was of stone. He turned upon the poor woman and struck her in the face, Even had I loved him that villas and palaces and settled down to would have been the end of the romance. I drove home. There would be no wedding at the church that day. There was a great scandal. Every or ber, fell in love with the daughter of took up the prince's cause, with the exception of the king.

The prince was almost bankrupt. He had squandered his all. He had sold to usurers half of the fortune he expected to get after marrying me. He had not the slightest affection for me. He was desperate and wanted the money. How old and wise I became during that ride home from the magistrate's! I vowed he should never have

a penny. It should all go to the crown. When at length be found that I was really serious he became base in his tactics. He was the one who was wronged. He gave life to such rumors among those I knew that soon I found doors closed to me which had always been open. No Italian woman could see the matter from my point of view. I was an American for all that my

was wrong. There! That is all. There is more mystery concerning Sonia Hilda Grosvenor.

And so the letter ended. There was not a word regarding any future meeting. There was nothing to read between the lines. A great loneliness surged over Hillard. Was this, then, really the end? No! He would wait here in Florence till the day of doom. He would waste no time in seeking her, for he knew that if he sought he would not find.

Day after day dragged through the hours, and Florence grew thinned and förrid. Sometimes he rode past the Villa Ariadne, but he never stopped.

It was in the middle of June that one afternoon the conclerge handed him a telegram, It contained but three

words: "Villa Serbelloni, Bellaggio," The Villa Scrbelloni, now a hotel, slands on a wooded promontory amount To be Continued
